Purdue Agricultural Centers (PACs)

Southwest Purdue Agricultural Center (SEPAC) is one of 8 Purdue Agricultural Centers across Indiana. Their purpose is to provide hands on research opportunities for specialists on campus to discover new information in the community so local food and fiber production can be improved and environmental quality maintained and improved.

Southwest Purdue Agricultural Center

SEPAC is located at 4425 E Co Rd 350 N Butlerville, Jennings County. There is a yellow caution light on US Hwy 50 approximately 5 miles east of North Vernon and 1 mile west of Butlerville. Turn north off of US Hwy 50 at the yellow caution light and follow the signs approximately ¼ of a mile to SEPAC. SEPAC was established in 1977, when the state of Indiana transferred 830 acres from the Department of Mental Health’s Muscatatuck State School to Purdue University. In 2005, the Department of Natural Resources transferred an additional 1,600 acres to Purdue. The center is distinctive in its history of conservation tillage, including no-till. Joel Wahlman is the Superintendent.
