1. List the six pillars of character that is a part of the show ethics in 4-H.

_____	_____
_____	_____
_____	_____

2. What is the condition caused by a build up of gas in the rumen? _____

3. Genetics play an important part of improving any beef herd. Heritability estimates of some economically important traits in beef cattle include:

Female Reproduction	_____%	Carcass Cutability	_____%
Carcass Quality Grade	_____%	Gain After Weaning	_____%
Rib Eye Area	_____%	Yearling Weight	_____%
Mature Weight	_____%	Feed Conversion	_____%
Weaning Weight / Mother Ability	_____%		

4. List one of the four ways to treat bloat in cattle: _____

5. **Coccidiosis** -Coccidia are bacteria that may cause scours (diarrhea) in older calves. These scours may contain blood. The best prevention is a _____ feeding area and _____ bedding.

Match the cattle diseases

WARTS	Occurs when the calf's resistance is low because of stress, allowing bacteria or viruses to start an infection.
BLACKLEG	Causes swelling and lameness. Skin between the toes and around the foot turns red, and the foot will have a foul odor.
CALF SCOURS	Occurs in young cattle between 6 months and 2 years of age. Causes a high temperature and gas formation under the skin.
FOOT ROT	The animal has swallowed metal while eating and it is caught inside the stomach.
HARDWARE DISEASE	Caused by an infectious virus. Serious cases are unsightly and painful.

Answers to these questions can be found in the "Beef Resource Handbook" 4-H 117R
