REPORT MUST BE TYPED!!!! (10pts)

GUIDE

- Make sure you type your report.
- Your goal is to stay within the money allotment.....you will be docked if you go over! What you have left over you will be able to use on future projects.
- If you are leasing a horse currently then you will need to stable your “project horse” so either look up the rates at local stables or work out a mock agreement with the farm you are leasing a horse from.
- Where designated I want a copy of real ads or quotes.
- You may use the internet, ad paper, people exchange, auction bill, friends, etc.
