

JASPER COUNTY FAIRGROUNDS

EVACUATION PLAN

In the event that it becomes necessary to evacuate the Fairgrounds, it has been determined that the safest, easiest and most efficient way to evacuate would be by dividing the Fairgrounds into two areas.

AREA 1: is from the North end of the Commercial Building (formerly known as the Farm Bureau Building) along with the North end of the Show Arena heading toward Hwy 114. Those vehicles would be directed by Law Enforcement to use the Main Exit on the North end, West side. Law Enforcement would direct traffic heading out of the Fairgrounds as well as any traffic on Hwy 114 that is headed East or West.

AREA 2: is the entire Commercial Building (formerly known as the Farm Bureau Building) and Show Arena and to the South. Those vehicles would be directed by Law Enforcement to exit using the South entrance to the Fairgrounds on 700 West, turning right to Bunkum Road. From there, they can go East or West.
