## Purdue Extension-Marion County Demonstration Garden: 2017 Information

We thank the following businesses and organizations for donations to the demonstration garden: All-America Selections, Carter-Lee/ProBuild Indpls., Cedar Creek Fence Company Inc., Dramm Corporation, Garden Tower Project, Garfield Park Master Gardener Association, Heidenreich Greenhouse, Indiana State Fair, Lowe's-Beech Grove and Post Road, Marion County Master Gardener Association, Preferred Advertising Co., Inc., Ready Seal, and Tractor Supply.

The **VegTrug elevated garden bed** (Gardener's Supply Company, <http://www.gardeners.com/>) was donated by the Marion County Master Gardener Association. The 2' x 8' **Elevated Cedar Planter Box** (Gardener's Supply Company, <http://www.gardeners.com/>) was donated by the Garfield Park Master Gardener Association. The three **Garden Towers** were donated by Garden Tower Project (<http://www.gardentowerproject.com/>).

For information on building the **cedar & patio block raised beds** in the demonstration garden, go to: <http://IndyMG.org> and click on Purdue Extension-Marion County Demonstration Garden, or go directly to: <https://extension.purdue.edu/marion/pages/article.aspx?intItemID=4498>. Complete plans are online.

The **vertical wall garden** was patterned after a design from the Chicago Botanic Garden (1000 Lake Cook Road, Glencoe, IL 60022, 847-835-5440) in their Enabling Garden (<http://www.chicagobotanic.org/gardens/enabling>). It was found in their fact sheet on Vertical Gardening.

The **succulent vertical garden** is composed of commercial units specifically designed for this purpose. The GroVert living wall planters were given to us at a local Master Gardener plant sale, but check the following website for purchase: <http://www.brightgreenusa.com/>. A local Master Gardener did the plant selection, planting and construction of this vertical garden. All of the plants are sedums and hen & chicks.

The three **flower towers** were made from cedar fence pickets and 1x2-inch cedar strips, purchased locally. Contact us for more information.

People have requested information on the **sources of some of the items in our projects** in the garden. Here are materials from our 2016 and 2017 gardens:

- Twine tomato trellis materials including tomato clips: Farm Tek (<http://www.farmtek.com/>)
- 20-gallon fabric tomato pots called Smart Pots: Local retailers or Smart Pots (<http://smartpots.publishpath.com/>)
- Haxnicks Micromesh cucumber screen for insect prevention: Territorial Seed Company ([www.territorialseed.com/](http://www.territorialseed.com/))
- Tomato ties on cages and/or arch were Adj-A-Tye Chain Lock: A.M. Leonard (<http://www.amleo.com/>) or Chainlock Reusable Locking Tie, Master Mark Plastics, Menards.

- Structural material for tomato arch, some cages, and ascending bean trellis was cattle panel fencing (16 feet long and 50 inches high, mostly with 6-in by 8-inch rectangles) from local Tractor Supply (<http://www.tractorsupply.com/>). One panel makes two triangular tomato cages about 2 by 2 by 2 feet.
- Structure material for other tomato cages was concrete reinforcing mesh (an 8-foot long and 4-foot high sheet with 6-inch squares) from local building supply retailers. One sheet makes one triangular cage about 2.5 by 2 by 2 feet.
- Paper mulch was WeedGuard Plus Biodegradable Paper Weed Barrier (regular and heavyweight) from Gemplers (<http://www.gemplers.com>).
- White fabric row cover material for insect protection is: Agribon+ AG-15 Row Cover (118" x 250') from Johnny's Selected Seeds (<http://www.johnnyseeds.com>).
- White fabric row cover (smaller sizes) for insect protection is Gardeneer by Dalen Harvest-Guard (5 by 25-foot sheet or 10 by 15-foot sheet depending on crop): Local retailers or Dalen (<http://dalenproducts.com/>).
- Row cover hand pegs (used to hold down row covers) from Gemplers (<http://www.gemplers.com>).
- Black poly pipe and 2-foot long ½-inch rebar (or 9 gauge wire) for use with white fabric row cover: Local building supply and/or tractor supply
- Hinges called Raised-Bed Grow-Box Corners for two raised beds: Lee Valley Tools (<http://www.leevalley.com/>).
- Black Steel Raised Bed Corner Brackets for three raised beds: Plow & Hearth (<http://www.plowhearth.com/>); a similar product was also available at Lowe's this year.
- The source of the aquatic plants was Trickers (<http://www.tricker.com/>).
