Ag & Natural Resources Newsletter – November 2017

Newsletter Brief

Transition time. This newsletter will go to Gibson and Posey County audiences, at least as I have email addresses for everyone. My first day in the Posey County office will be Tuesday, November 14. Technically, I start in Posey on Monday, but a trip to Indianapolis to be trained on dicamba changes and RUP status will take up the first day. Once a replacement is hired in Gibson, you will see their newsletter appear to the Gibson County group. Lisa Bloodworth, ANR Program Assistant in Gibson County, will be providing services in the meantime. Until then, allow me to point you towards PARP opportunities. The Gibson Southern Winter Workshops WILL continue this year. Expect an update in December on that schedule. The corn and soybean variety trial results will be coming out very soon. Please treat us with patience there. Please give a call (812-385-3491) or send me an email at hschmitz@purdue.edu with any feedback. Apologies if this hits your inbox twice; I will clean out duplicate emails this month.

Ag and Natural Resource Events

November 16 – [Healthy Soil, Happy Pollinators @ Trafalgar](#)
