

Consumer Clothing Notebooks

Revised November 2018

Title Page

- Include your name, county, project, grade, level and club.

Picture

- You in your purchased outfit.
This helps the judge to remember you and your outfits.

Activities

- Activities from the manual.
- Include activity group number and letter.
- New page for each activity.

About Your Outfit

- How you decided what you needed.
- Why you chose specific items.
- How you feel about your outfit.
- Cost of your outfit/how much you saved on your outfit.
- What other items in your wardrobe the items go with.

Project Manual

- Your manual should be included in your notebook.

Feel free to be creative with your notebook. Notebooks may be decorated, etc., but remember that they will be judged on content. All notebooks should be neat (they do not have to be typed). It is nice to see notebooks that have each year added as you progress through the project (3 ring binders work well for this), and it gives everyone a good idea of how much work you have put into your project. You may include more information than what is listed, but try to include at least what is suggested.
