## 4-H RABBIT QUESTIONS

### *GRADE 5*

1. Give a description of the breed of rabbit you own.
2. What is a pedigree?
3. What is a tattoo and where should it be placed?
4. What is feed maintenance requirements for weights of 5lbs, 10lbs, and 15lbs rabbits?
5. Name a disease, or health condition, that is transmitted from animal to animal and humans can also get it. Signs are crusty sores in a circular pattern.
6. Name a disease, or health condition, where rabbits will shake their head and/or try to dig at their ears. This can cause poor overall health. It is a mite that is in the ear.
7. Have your rabbits ever had any health problems? If yes, what did you have to do to make your rabbit healthy?
8. What is the gestation period of a rabbit?
9. Rabbits sold for meat are divided into three classes. What are they and the weight for each class?
