Learn pond and wildlife management at twilight event

Landowners with goals involving management of ponds for fishing, or managing wildlife for conservation and hunting, are invited to an upcoming educational event hosted by Purdue Extension in northeast Indiana. Plan now to attend the Pond and Wildlife Management Twilight Meeting at Northeast Purdue Agricultural Center (NEPAC) on May 31, from 6:30-9:00 p.m.

Topics covered under management of ponds include fish stocking, fish habitat and managing harvest. Dr. Mitchell Zischke, clinical assistant professor, fisheries and aquatic sciences, at Purdue University, will be the speaker.

Jarred Brooke, Purdue Extension wildlife specialist, will cover wildlife management topics, including managing field edges for wildlife, forest management for deer and turkey, and cover crops as wildlife food plots.

There is no cost to attend the training, but registration is requested by May 29. To register, call Purdue Extension in Whitley County, 260-244-7615, with your name and preferred phone number.

NEPAC is located at 4821 E. 400 S., Columbia City, Whitley County. From State Road 9 about 3 miles south of Columbia City or 2 miles north of St. Rd. 14, take County Road 400 South to the east. NEPAC is 4 miles east on the North side of the road. If you need a reasonable accommodation to participate in this program, contact John Woodmansee at 260-244-7615, or jwoodman@purdue.edu, by May 15.

It is the policy of the Purdue University Cooperative Extension Service that all persons have equal opportunity and access to its educational programs, services, activities, and facilities without regard to race, religion, color, sex, age, national origin or ancestry, marital status, parental status, sexual orientation, disability or status as a veteran.
