Animal Identification in 4HOnline (NEW ANIMALS)

Before entering animal information into 4HOnline, please make sure you have access to the picture file(s) of your Llama/Alpaca on a flash drive, computer hard drive, or from the mobile device which you will be using to complete your Animal ID. Picture files in an email must be save to a jump drive, computer hard drive or mobile device's pictures before proceeding. A maximum of 2 picture files per animal may be uploaded into 4HOnline. The picture must contain the face and all four (4) feet of the animal in the picture. Picture files must be a .jpg, .jpeg, or .png file. Word documents or PDF documents containing pictures are not acceptable. Animal Lease forms should be submitted to your local Purdue Extension Office by the species deadline or earlier county deadline if applicable.

Please complete the following steps to identify your livestock in the 4HOnline system.

1. Login to your family profile at: <https://in.4honline.com> using your family email address and password you created at the time of family profile creation.
 - a. If you have forgotten your password, please use the 'I forgot my password' option on the 4HOnline login page, and you will be sent a new temporary password.
 - b. If you turned in a paper 4-H enrollment form, please contact your local Purdue Extension Office for assistance.

Family Enrollment of Animals

Animals may be co-enrolled within the same family (Siblings and step-siblings). The animals may be listed under a single 4-H member, and at a later point, the animal may be associated with a different sibling by contacting the Purdue Extension Office in your county of 4-H enrollment. With this capability in 4HOnline, animals do not need to be entered under each 4-H member in the family. It is strongly suggested that at least 1 animal be identified by each member enrolled in the project.
