Signature of Leader \_\_\_\_\_ Date \_\_\_\_\_

### Suggested Requirements for this Plant Science Project:

1. Complete the section on "Getting Acquainted with Plants" at the beginning of this manual.
2. Select at least three experiments that interest you. Follow directions for completing these experiments. You may do more of the experiments if you want to.
3. Fill in the following outline to tell about your project.
4. Give your completed record, outline and manual to your leader by the date requested.

### Outline for 4-H Plant Science Project, Division II

Which experiments did you do?
