

## Purdue Extension-Marion County Demonstration Garden 2012

A new Indianapolis public garden was established in 2012 by Purdue Extension-Marion County. The demonstration garden features annual flowers and vegetables. "The garden demonstrates how to grow food and ornamental plants," says Steve Mayer, Extension Educator-Horticulture, for Purdue Extension-Marion County. "Gardeners can see and learn about plants adapted to Indiana and how to care for them." Gardeners can see award-winning flowers and vegetables as well as vegetable gardening techniques such as raised beds. This year people can observe flowers that endured the heat as well as blooms that attracted hummingbirds. Site development began in early June and planting began on June 14, 2012 and was completed before the end of July.

The demonstration garden is located 350 feet east of Discovery Hall where the Purdue Extension-Marion County office is located. This is in the northwest corner of the Indiana State Fairgrounds, 1202 E. 38th St., Indianapolis. There is no charge to view the garden or for parking. For directions or more information on the garden, call 317-275-9290, or e-mail: [MayerSL@purdue.edu](mailto:MayerSL@purdue.edu). The 2012 plant list is found below. There are 45 All-America Selections\* award-winning plants.
