

Purdue Extension-Marion County Demonstration Garden 2013

A new local public garden was established in 2012 by Purdue Extension-Marion County. The demonstration garden features annual flowers and vegetables. "The garden demonstrates how to grow food and ornamental plants," says Steve Mayer, Extension Educator-Horticulture, for Purdue Extension-Marion County. "Gardeners can see and learn about plants adapted to Indiana and how to care for them." "You can see award-winning flowers and vegetables as well as vegetable gardening techniques such as raised beds," says Mayer. Purdue Extension-Marion County staff and Master Gardener volunteers design and maintain the garden. In 2013 it was selected as an official All-America Selections (AAS) Display Garden-one of only six in the state of Indiana. The 2013 plant list is found below. There are 55 All-America Selections award winners in the 2013 garden. The large AAS signs show the most recent winners from the past five years. Smaller signs with the logo designate older AAS winners. The **2013 AAS winners** are highlighted in **bold**.

The demonstration garden is located 350 feet east of Discovery Hall where the Purdue Extension-Marion County office is located. This is in the northwest corner of the State Fairgrounds, 1202 E. 38th Street. There is no charge for parking or viewing the garden. If you would like more information on the garden or need directions, please call 317-275-9290 or e-mail: MayerSL@purdue.edu. Additional information is online at: <http://IndyHorticulture.org>.
