by

Dec 9th !!!

"Now that the Harvest is Over, What Next?" will be presented by Amy Gamble, Grain Origination Specialist at Cargill – Dana. She will give a market update about what to watch for in the next few months and look ahead to the 2020 crop. This **free** program is to help farmers and agribusiness managers make better business decisions in the coming year. After the outlook, Purdue Extension will discuss how farmers can better understand and manage stress, in "Weathering the Storm in Agriculture: How to Cultivate a Productive Mindset".
