

2020 Sheep and Goat Webinar

How a Poor Hay Year Can Affect You!

Date: Tuesday, January 28, 2020

Time: 7:00 – 9:00 p.m. E.S.T. (6:00 to 8:00 p.m. C.S.T.)

Viewing sites are listed on page 2 (back) of this flyer

Presentation Schedule

♦ The Problem

Keith Johnson, Purdue University Extension Forages Specialist- The 2019 hay crop is some of the poorest quality in years. Keith will analysis the hay situation, hay quality concerns and the importance of testing .

♦ The Consequences of Feeding Poor Quality Hay

Richard Ehrhardt, Michigan State University Sheep and Goat Specialist. Potential poor quality hay feeding problems include weight loss; poor lamb and kid birth weight, colostrum quality and milk production. Dr. Ehrhardt will cover supplementation strategies to be able to utilize this hay and still have a productive year.

The Purdue Sheep & Goat Website

Important information to producers about health, maintenance and current issues in the sheep and goat industries.
