Empowering farm women to be better business partners through networks and by managing and organizing critical information.

Why Annie's Project?

This six-week course is a discussion-based workshop bringing women together to learn from experts in production,

financial management, human resources, marketing and the legal field. There's plenty of time for questions, sharing, reacting and connecting with your presenters and fellow participants.

It's a relaxed, fun and dynamic way to learn, grow and meet other farm women.

"I took the class to gain a better understanding about agribusiness and how financial decisions impact our farm operation. I have a better understanding of balance sheets and the futures market...this class has improved communication with my spouse on concerns he works with on a daily basis." – Linda
