Ear Tag Placement and Administration

The videos and resources listed below may include tags that look a bit different from the tags we will be using for all Adams County 4-H livestock, but the positioning of the tag and the overall application procedure is the same. Please restrain the animal to minimize stress and involve youth in the process when applying the tags. This will be a great learning experience for all of our 4-H families, and remember that your specific livestock committee members, vets and Extension Educator are always here to support you if you have any questions.
