

## Animal Identification

### Animal Identification in 4HOnline

Please complete the following steps to identify your livestock in the 4HOnline system.

1. Login to your family profile at: <https://in.4honline.com> using your family email address and password you created at the time of family profile creation.
  - a. If you have forgotten your password, please use the 'I forgot my password' option on the 4HOnline login page, and you will be sent a new temporary password.
  - b. If you turned in a paper 4-H enrollment form, please contact your local Purdue Extension Office for assistance.
2. Click the orange 'Continue to Family' button.
3. Find the 4-H member's name in the Member/Volunteer list for your family.
4. Click 'Edit' next to the 4-H member's name to which you wish to identify animals for in the system.
5. Click the text that says 'Animals/Livestock'.

13. Repeat steps 6 – 11 for each animal the member needs to identify.
14. Members are able to edit Animal ID information until the species specific Animal ID deadline.
15. Click the 'My Member List' in the upper right to return to the list of family members to select another 4-H member to identify animals.

## Family Enrollment of Animals

Animals are automatically co-enrolled within the same family (Siblings and step-siblings). **With this capability in 4HOnline, animals do not need to be entered under each 4-H member in the family.** The exhibit management program will allow a member to select to exhibit any animal identified by the family in 4HOnline. It is strongly suggested that at least 1 animal be identified by each member enrolled in the project.
